## ITINERARY

It's a good idea that you will spread in smaller groups, as it will make the whole process for you easier and faster when entering certain sights.

Most of the sights you do not need local guide.

We would recommend you make a small plan together with the guide upon arrival or the next day when travelling to Helsingborg (Kronborg) - you have time in the train to make a plan.

Note: Rosenborg castle entrance can actually not be pre reserved for CPH card holders, so you can go there in smaller groups or all together but you might not be able to enter all at the same time.
